Annual
Parade of Lights

Click to Page 15

Joan Aufderheide is coordinating how many sleds will be participating in this year's parade tour, so please contact Joanne at 862-8413 to SIGN UP EARLY to get your parade time and space reserved. Parade time and space is limited per hour.

Now is the time to begin thinking about how you are going to decorate your cabin for the Community Parade of Lights!! Our Arrowhead Parade of Lights is the highlight of the community during the holiday season, because it's the members within our beautiful community who help make it so spectacular!! Therefore, join in and let's get in the mountain spirit together and decorate for the holidays! PRIZES AWARDED to the 3 most popular wired cabins from Gurnison Electric and the ABE. Please contact Joanne Aufderheide at 862-8413 to add your cabin to the parade route.

ARROWHEAD RANCH REAL ESTATE

2019's #1 office for LISTINGS and SALES in Arrowhead

#1 in Sales & Service—SERVING ARROWHEAD SINCE 1974—www.arrowheadranch.com 970-862-8402

President's Message

Most of you are probably feeling the same way I am. I ask myself: How can it be almost Christmas? Where has the year gone?

Dick Bloss, Larry Kontz and I will be completing our term of office in January. From the three of us, please know that it has been our pleasure to serve you. The community can look forward to the service of three new board members and four continuing board members as of the January 18, 2020 meeting.

In October, we welcomed a new board member, Brad Fowler, to fill the board vacancy created when Kim Norwood resigned because of his move to North Carolina. Many of you already know Brad from his years of service as a member of Arrowhead Patrol. He now continues to serve our community on the Board.

As owners, we should all want to know what is happening in our community and board meetings are central to what is occurring in Arrowhead. As of June 2019, owners who cannot be in attendance at a meeting can get the same information while sitting in the comfort of their home, no matter where home is. It's really easy to do! Just click on the notice of the meeting Minutes when they are posted on the AIA website. Click again on the date of the meeting you want to listen to. Create an account or press view. Once the Minutes appear, click the link to the recording and you are set to go. If you do not want to listen to the whole recording, the recording position for the start of each Agenda Item and Vote is highlighted in yellow, so you can fast forward and listen to a particular section. Please take advantage of this new technology so that you can stay informed and make wise decisions when you are asked to vote on certain issues. Informed owners make for a better community.

A particular thanks to Keith Dalton and Lisa Ditmore for their work on this project.

There are many important issues which will be discussed and perhaps voted on in 2020 by the board and in some cases maybe by the owners. In years past, owner participation, even in elections, has been disappointing. We are encouraged that an unprecedented number of owners participated in a survey on the shed size issue - over 500 were returned. We are hopeful there will be similar participation for this year's Board of Director Election taking place as I write this. Get involved – stay involved.

We are so blessed to have the employees we have to serve the various needs of the community. Please take the time to thank them for all they do. It's important for them to know that owners care. I can tell you without exception, these are special people doing an outstanding job.

Have a wonderful Christmas and I hope that you feel the extraordinary blessings of this Season.

Patty Greeves
AIA Board President
pattygreevesaia@gmail.com

Get ready for Winter Arrowhead!! It will be here before you know it.

Below is a list of things you should know for the upcoming winter season:

1. Check your car out to be sure it's ready for winter; Carry a blanket and some food and water in your car. If you get stuck or break down on the road you may be there a while so be prepared.  **Be sure you have the appropriate AIA stick your vehicle. Patrol may need to contact you so be sure they can do that.**
2. Have an emergency kit in your vehicle.
3. Buy a set of chains or cable chains for your car. Test fit them before the snow flies to see that they fit and that you know how to install them properly
4. Put a good sturdy shovel in your car.
5. **Have I said to be sure you have the appropriate sticker on your machine?**  **Patrol may need to contact you so be sure they can do that.**
6. When snowmobiling, stay on the groomed trails. AIA property extends to the south to the first cattle guard. Please stay on the groomed trails as long as you or your guests are in the community. Going "off trail" in the community causes "Ghost Trails" which when people follow them can cause people to get stuck and stranded in low visibility conditions or at night presenting a very dangerous situation.
7. **Speed limits on the filing roads are still 20 mph** in the wintertime. We are required to keep the roads groomed so our first responders can get to an incident in a timely fashion. When you or your guests travel at excessive speeds or rapidly accelerate or decelerate it causes moguls in the snow which not only makes it difficult to get around but also makes it longer in time for our first responder to do their jobs by getting to the scene of an incident quickly. **Slow down and avoid rapid acceleration or braking!!**
8. Be respectful of others on the filing roads. All users should move to the right when passing on the roads. Snowmobilers and side by sides should slow down when passing skiers, dog walkers and pedestrians.
9. Some good advice on traveling the Alpine: 1) Uphill traffic has the right of way. Always yield to those coming up the hill!! 2) Stay away from the edges of the road. The snow on the edges and ditches is not packed so it's very easy to get pulled in and you will get stuck. 3) We will have logging trucks on the Alpine all winter so even if you are coming uphill don't take on the big truck!! **Yes, you have the right of way but he has the truck!!!** 4) AIA maintains the road with our loader and grader. Always yield to these pieces of equipment. Never try to pass them without first getting an acknowledgement from the operator that he sees you and has given you a signal that it's okay to pass. These guys are dealing with a lot just to operate the equipment so don't assume they've seen you. 5) When towing, take the time to put on your tire chains. Last but probably most important, Speed. Slow down when driving on snowy roads. Just because you have a 4-wheel drive vehicle doesn't mean you can drive regular speeds.

SLOW DOWN!!!

Jim Matteson

Maintenance & Improvements webpage at:
<https://www.arrowhead1.org/maintenance-improvements>

Message from Patrol

Patrol would like to welcome two new “members” to the team...

1. Earl Fay has moved from Design/Review to the position vacated by Brad Fowler, when the later filled the Board position vacated by Kim Norwood.
2. A new-ish snowmobile has joined the modest Patrol fleet. The Polaris 4-stroke was purchased from an Arrowhead property owner at a very reasonable price. When decked out with proper signage and equipment, it will be used to monitor Arrowhead properties and run drives.

Earl Fay, newest member to the
AIA Patrol Team

Speaking of running drives...that time of year has come again. Patrol, as a courtesy, will run your drive if weather and conditions permit and you complete 3 things:

1. **Have a signed Liability Waiver on file.** The form can be obtained from Patrol on-line <https://www.arrowhead1.org/forms> . The Waiver is good for as long as the property is owned or until the property owner retracts it.
2. **A safe route is marked from the filing road to and from the structure by pairs of marking poles.** (4 feet above ground level - OK, 5 feet - Better, 6≤ feet Best) The route can cross common grounds but if it traverses a neighbor's property a Liability Waiver will be needed from the second property owner.
3. **The route must be inspected and approved by a Patrol officer.** NOTE: Make the turns required in the route as large as possible to make it easier to turn around in deep snow.

Patrol will again be monitoring the Winter Parking Lot. With more folks spending time on the mountain during the winter, parking spaces are at a premium, particularly during the Holidays.

Snowmobiles and side-by-sides are to be parked up on the hillside. said vehicles can be left in the main parking for a maximum of 3 nights. NEVER chain snowmobiles together.

Trailers can be parked at the lot. Typically, box trailers are placed up on the hill and flatbeds, in the north-west corner. There is a \$50 annual fee to park your trailer either place.

There are a limited number of electrical hook-ups available for a price and must be reserved by contacting Patrol.

Carefully observe that the front of vehicles are aligned with the orange cones that delineate the parking rows.

All vehicles, OHVs, snow machines and trailers must have yellow Arrowhead stickers or visitor passes and must be clearly visible.

Remember this, when conditions demand, the parking lot will be plowed! At that time, **ALL vehicles must be removed from the main parking area.** If you need to leave a vehicle in the parking lot while off the mountain, be sure that a key is left with a neighbor or Patrol, should plowing need to be done. Also, monitor blast email for plowing announcements.

Happy Holidays,

Dave Reddish

CABIN ONE LLC

Modern Cabin Design + Responsive Land Design

SEEKING A DESIGN REVIEW MANAGER

The Arrowhead Improvements Association Board of Directors is actively seeking a Design Review Manager for the Design Review Committee (DRC). This is a part-time position with variable hours based upon the needs of the community and the number of plan submissions. Activity starts in March and usually ends around the first of November with the summer season having the most construction activity. Meetings are generally scheduled the second Monday of each month from 9:00 am to approximately 12:00 pm.

Below are a few of the job duties:

- Perform responsibilities as a committee leader, including: assigning tasks, preparing agendas, direct meetings, organize documents, review & approve minutes, perform follow-ups, ensure task completion and verify file accuracy and/or database records are complete.
- Proficient knowledge and use of Word and Excel is required.
- Ensure that DRC documents are complete, accurate, clear and understandable; plus well-managed and properly maintained/controlled.
- Uniformly enforce the AIA covenants and other governing documents as they relate to the duties and responsibilities of the DRC.

To obtain a complete job description for the Design Review Manager position, [CLICK HERE](#).

Interested individuals should contact Agnes Kroneraff at 970-642-4232 or agnesiaoffice@gmail.com to obtain a job application. All completed applications should be accompanied with a résumé and must be received at the AIA office at PO Box 83 Gunnison, CO 81230 or returned to the above email address before January 15, 2020 to be considered. After the applications are considered, suitable candidates will be notified of a time and place for an interview to determine the most qualified applicant. If you have any questions, please email AIA President Patty Greeves at pattygreevesaia@gmail.com.

Forestry Message

MCH PACKS - Arrowhead has made tremendous progress combating bark beetles the last few years, but we need to continue putting up MCH packs to maintain that success. The price is down slightly from last year at \$1.17 each. To order make out a check to the AIA and send to Bill Conway, 1734 SE 52nd Ave, Portland, OR 97215. Please have your checks to Bill by Jan 31, 2020.

MCH packs will be available for pick up at Arrowhead beginning in mid-May and should be put up by mid-June. If you cannot be at Arrowhead to put up your MCH packs in the first two weeks of June you can have them put up by a volunteer from the fire dept with a donation of your choice to the AVFD sent to Bill Conway at the above address. If you have questions on how many to order or to have them put up for you, contact Bill at arrowheadforestmanager@gmail.com.

HAZARD TREES – There have been several requests for permits to remove hazard trees this fall after Bill had to leave early for the winter. In all cases we have been able to work that out very quickly and get the permits issued. If you have any hazard tree problems over the winter don't hesitate to contact Bill for assistance.

LOGGING – There are now three logging contractors working on two timber sales on the Alpine Plateau harvesting beetle killed spruce and they are producing about 30 loaded trucks per day. That level of activity can be expected to continue until March. Log haul is occurring Monday through Friday and will not be occurring on weekends, Federal holidays and between Christmas and New Year's. Trucks are required to use tire chains on snow. Please drive very slowly around trucks that have stopped to chain up or un-chain. Steeper areas of the Alpine, such as the "beaver slide" can be very slick with packed snow and ice. Please consider using tire chains for better control, even with four-wheel drive. Also please consider using log trucks as your pilot car either up or down the Alpine.

As of mid November, road construction continues on the Alpine Road. If the weather continues to cooperate, the contractor will be placing new surface rock down to the south Arrowhead boundary. The contractor is also working to complete work on the side of the road at several points to allow snowmobile trail grooming next to the road. If a groomed trail does not exist next to the road snowmobilers need to exercise **EXTREME CAUTION** when sharing the road with logging trucks.

FOREST REFUSE SITE – The site will be burned when there is about a foot of snow in the area and the weather conditions allow the smoke to drift away from Arrowhead. The community will be notified by Blast Email before the burn occurs.

If you have questions about these or other forestry related subjects, please feel free to contact Bill Conway at arrowheadforestmanager@gmail.com.

Arrowhead Fire Protection District

Arrowhead
Fire Protection District

SIGN UP

Email Notifications

The Arrowhead Fire Protection District is a separate governmental entity (municipality) of the state and county that has a myriad of statutory responsibilities; including the levying of taxes for the purpose of providing fire protection to the residents of a particular area, in this case the Arrowhead Fire District. Therefore, the Arrowhead Fire Protection District is responsible for setting up its own notification data base in order to disseminate vital information to the members within its own fire district.

In an effort to communicate and expedite vital State, County and community fire safety information and critical alerts to the many property owners and residents within our Arrowhead Fire Protection District (AFPD), the AFPD Board of Directors has established an Email Blast Notification System. To ensure that property owners and residents receive these critical alerts and information with possible emergencies and evacuations, it is **HIGHLY RECOMMENDED** that you sign up to the **Arrowhead Fire Protection District EMAIL NOTIFICATION SYSTEM**.

Please take a moment to fill in the appropriate information below, to be notified by the Arrowhead Fire Protection District (AFPD) and Volunteer Fire Department (AVFD), in the event of emergency situations or critical community alerts. This **Notification Blast system** is confidential and only for owners & residents within Arrowhead Fire Protection District.

Thank you,

Arrowhead Fire Protection District (AFPD)

Lisa Ditmore 2017

For the next several years, the Alpine Plateau Road (from upcountry to Hwy 50), In an effort to provide the owners & residents of Arrowhead advanced information and warning of the unusual road activity, a **POST ONLY MESSAGE BOARD** was created. Please visit our AIA website at: <https://www.arrowhead1.org/> and click on the **Flashing Road Sign** for the latest information.

All information and questions about the road activity will be fielded through our **AIA Forest Manager, Bill Conway:** arrowheadforestmanager@gmail.com, our **Heavy Equipment BOD Liaison, Jim Matteson:** jem577905@gmail.com, members from the **AIA Patrol Team:** arrowheadpatrol@gmail.com and members from the Arrowhead Fire Protection District (AFPD).

It is advised, before traveling up and down the Alpine Plateau Rd., **CLICK HERE** to view and bookmark the **Alpine Plateau Road Activity Message Board** periodically, to stay up-to-date with the ever-changing road and weather activity.
