

Carol Bergman

I have lived and worked in Colorado for the past 20 years. Steve and I first visited Arrowhead 9 years ago when some good friends in Grand Junction invited us up to share a weekend in the snow. Although winter is not my favorite season, we were both very impressed with this beautiful place in the Colorado mountains. A year later we bought our first lot and spent many summer weekends enjoying friends and our 5th wheel trailer. It wasn't long before we decided on a cabin, and have since purchased a third Arrowhead property.

Arrowhead has been a good fit for our outdoor hobbies and casual lifestyle. We enjoy motorcycles, dirt bikes, four wheelers and snowmobiles when we aren't working. Steve and I have owned and operated Canyon Electric in Grand Junction for the past 13 years; and I have been an AFLAC Associate for the past 8 years. As a business owner I understand budget issues, communication needs, policies and procedures, conflict resolution and problem solving.

I understand there is a vacancy on the Arrowhead Board of Directors and I would be willing to fill that vacancy if the Board chooses to appoint me to that position.
